- True Dynamic Balance
HPI ER collet chucks are dynamically balanced not production balanced.

- Dynamic Balanced Nut Available
The collet nut is available in a true dynamic balance, this nut comes standard on "SG" series holders.

- Through Hole Depth Adjustable Screw Standard
Coolant through the center of the spindle is available as standard.

- DIN Coolant Hole
Form AD/B coolant holes are available standard on "SG" series holders and DIN form B is available upon request.
